Email: shipwheelcattle@itstriangle.com • www.ShipwheelCattle.com

Hello and welcome to our 8th annual production sale. We are very humbled by the support that we have received in the past and look forward to working with you in the future. Thank you for your confidence in our program. We sincerely enjoy the incredible people we have had the opportunity to meet and the many friendships made over the years.

There's no question that this is the best set of bulls we have ever raised. From big time growth bulls to calving ease prospects, there is something for everyone. Every bull selling was bred, born and raised on our outfit. They have had no creep and no hoof trimming. We are continually evaluating them which results in only the top 50% of the 2015 calf crop making the sale. Another sale attraction this year is 100 fancy commercial bred heifers from Curry Cattle Company, Valier MT 50 of these heifers were ultra-sounded safe to our herd sire, S Chisum 255, due March 1. The remaining 50 were naturally bred by top calving ease bulls, due mid-March.

We require our cattle to be balanced and excel at every trait in our extreme Northern Climate. Hoof structure, longevity, udder quality, fertility, mothering ability, temperament and carcass traits are important to us. Having the privilege to serve as your seed stock provider is not taken lightly here. We know that these genetics will impact your operation for many generations.

Again, this year, we have tested every bull for the i50K genomic and parentage verification. i50K is one of the latest tools available today. Larry Gran from Zoetis will be on hand sale day to answer any questions you may have. Thanks again for your support and consideration. Hope to see you sale day.

(406) 684-5264 - office

tylerholland@3rivers.net

Providing solutions for the livestock industry
for over 25 years.

Coverage

The coverage provides traditional, full mortality for death from natural causes or humane destruction as a result of a life-threatening injury. The endorsement for Accident, Sickness & Disease (ASD) Infertility provides coverage in the event of permanent impotency, infertility or the bull inability to naturally service cows as a result of an accident, sickness, or disease sustained during the policy.

Option 1

Bull Mortality and Infertility Coverage

Values

Not to exceed purchase price

Term

One Year Policy Term

Premium

10% of the Purchase Price Premium Fully Earned \$200
Minimum Premium Per Animal

Testing

All bulls must be tested, certified and listed in the official catalog of a herd sale

Full Mortality

100% of the value of the bull in the event of death or humane destruction as a result of a life-threatening injury.

Accident, Sickness & Disease (ASD) Infertility

80% of the value of the bull, less salvage value, in the event of permanent impotency, infertility or being incapable of serving females as a result of an accident, illness, or disease sustained during the policy.

Option 2

Bull Mortality Coverage

Values

Not to exceed purchase price

Term

Renewable One-Year Policy Term for Bulls
6 Month - 7 Years of age

Premium

5.5% of the Purchase Price
\$200 Minimum Premium Per Animal

Testing

Signed statement of health required for all bulls for which coverage is requested.

Veterinarian examination required on bulls of \$50,000 or more

Full Mortality

100% of the value of the bull in the event of death or humane destruction as a result of a life-threatening injury.

255 was the high selling bull from Spickler's in North Dakota in 2013. He is an attractive, excellent footed, expressively muscled, herd sire that has proven himself to be an outstanding breeding bull. 255 sires a little less frame and more calving ease than the old Chisum bull. The dam of 255 is an excellent uddered Chinook daughter that descends from a long line of productive cows. The females from 255 are outstanding.

Owned with J.C. Heiken & Sons Angus, MT, Spickler Ranch, ND and leased to Select Sires.

Semen available from Select Sires.

“Dr. J” is a man amongst boys when it comes to herd bulls. Few sires can match the amount of muscle that Dr. J carries and still have the ability to travel. He stands on excellent feet, is very gentle and clean fronted. “Dr. J” has proven himself to be an extremely intelligent breeding bull. He services approximately 50 cows between her and 3-B ranch every year.

**Owned with 3-B Ranch and Black Pine Farm, MT.
 Semen available.**

Z317 was our high selling selection from Currant Creek Angus Ranch. He is an impressive, light birth Uncommon son that is by a nice, Cole Creek bred cow. He is very complete and has proven himself to be a rugged breeding bull. You would have to drive many, many miles to find a bull with better feet than Z317.

**Owned with Currant Creek Angus.
 Semen Available.**

BULL DEVELOPMENT AT SHIPWHEEL CATTLE CO.

Prior to calving, our cows are expected to graze winter pasture with only SweetPro blocks, usually well into February before seeing any hay. Our cows are range calved in April and May while only being checked twice a day. The pairs summer primarily in some of our higher, rougher pastures with the calves never seeing any creep feed. A full round of shots are given at our June/July brandings as well as preconditioning in September/October. The calves are then fence line weaned in early November on our hay meadows and SweetPro blocks. After grazing for 30 days, the bulls are then hauled into our grow yard, where they remain until May. While in the grow yard, a 2.5 to 3 lb. gain is targeted with a roughage based diet consisting of grass/alfalfa hay, silage, a mix of oats, peas, corn and a customized vitamin mineral pack. We are constantly evaluating them and enjoy watching them slowly progress into structurally sound breeding bulls. The bulls are then hauled to summer pasture where they are expected to travel and thrive in rough terrain. In September, the bulls are brought back into the grow yard and fed a similar diet to post weaning. The manner in which we develop our bulls enables them to express their genetics. The bulls are broke to horses, dogs and a hot wire.

COMMERCIAL HEIFER CONSIGNMENT

**Ty Curry's Reserve Champion Steer
at Marias Fair.**

Mate to the bred heifers that sell.

Curry Family

This fancy set of bred heifers come from Curry Cattle Company out of Valier MT. The Curry family runs one of the premier herds of commercial black angus in Montana. The quality runs deep in these heifers as the result of many years of selecting top end bulls from reputable seed stock producers in Montana. 50 of the heifers were ultra-sounded safe to S Chisum 255 due March 1st. 50 of the heifers were ultra-sounded to be naturally bred to top end calving ease bulls, due mid-March into early April. The heifers will weigh 1000 to 1050 lbs. by sale day. They have had Preg-Guard 10, Guardian and Back poured.

- Recommended for heifers or cows
- A stout made, moderate framed Resource son with calving ease and added marbling. He grew out extremely well in spite of being a 62 pound twin.
- Pathfinder donor dam is also known as the mother to the ABS bull, Shipwheel Chinook. She is super gentle and moderate framed with a near perfect udder and teat size. At nearly 12 years of age, 5506 looks to have many more years ahead of her. She traces from our foundation Eriskay cow family which is best known for longevity, moderate frames and excellent udder quality.

103	715	101	1160	102	5/98	40.5

- Recommended for cows
- An impressive individual here. He possesses extra style, is deep and thick and stands on a good foot.
- Dam has the look of an ideal Angus cow. Medium framed, perfect udder and teat placement, and easy fleshing. She is a sound structured, good footed cow that always has her calf nearby. She is on the short list of cows to be flushed.

- Recommended for cows
- Resource stamps his calves like few sires can. Much like this good bull.
- Dam is a pretty, tidy uddered, small teated cow with impressive production stats.
- 15 year old Donor Grand dam has been very influential to our cowherd and is currently being flushed.

One of the most exciting bulls to sell in the Spring of 2015. He was the \$18,000-second-high selling bull from Myers Angus Farm at the Boyd Beef Cattle Bull sale in KY. Keystone combines calving ease, growth and carcass traits all with a moderate Milk and high Scrotal Circumference EPD's. This son of Connealy Capitalist has the potential to make excellent females combining maternal greats Hoover Dam and Hyline Right Time 338 on the bottom side of his pedigree. His dam, Myers Queen M180, is deep ribbed and easy fleshing with a near picture perfect udder. Keystone exhibits near flawless phenotype and has exceptional feet and leg structure.

Owned with Myers Angus Farm, KY.
Semen available from Origen.

4541 was the top selling bull in our 2015 production sale. He was truly a standout at every point as a young bull and continues to be. This gentle, excellent footed bull is loaded with muscle expression and style. His excellent uddered dam raised him as her first calf. He has proven to be a very aggressive breeding bull. Look for his sons in 2017.

Owned with MY Angus and Schmitt Angus, MT.
Semen Available.
