Email: shipwheelcattle@itstriangle.com • www.ShipwheelCattle.com

Hello and Welcome to Shipwheel Cattle Company

It has been nearly 80 years since our family has been relying on the Black Angus Cow for our living. Many things have changed in those 80 years but there are quite a few things that haven't. Most importantly would be the perseverance of the Black Angus Cow and her ability to adapt to the extremes that Mother Nature throws our way. And not to mention, the stewards of the land. The good cowmen and women working hard every day of the year, doing their best to keep their operations thriving for the generations to come. Our hats off to you.

We are very proud of this set of bulls. Every one of them was bred, born and raised on our outfit. We develop them slowly at home and only offer the top 50%. They have gone through 6 sorts to make it this far. Every cow is rated at calving for disposition, body condition, hoof structure, udder attachment and teat size. Our goal is to provide you with bulls that will keep you profitable. If for whatever reason they don't, we want to know about it and make it right.

Our goal isn't to breed the big numbered cattle that fall out of the herd quickly or chasing the latest fad. All the right numbers in all the right spots don't matter much if they structurally break down and can't travel. We have learned to sometimes lean towards the older, proven genetics to do the job. We don't consider on flushing a cow until she has proven herself worthy. Most of our donor cows are in their teens. Our breeding philosophy is to simply create cattle that are profitable, trouble free and just flat last a long time. Those are the kind that keep you, our customers in business.

We are humbled and consider it a privilege to serve as your seedstock provider. We know that these genetics will impact your operation for many generations. Thank you again for your support and consideration. Hope to see you sale day.

Klint, Lori, Austin & Bree Swanson

 John Goggins Western Ag Reporter
 Bo Bevis Northern Livestock Video Auction
 Gary Buffington Northern Livestock Video Auction
 Devin Murnin Western Livestock Journal
 Curt Cox Wyoming Livestock Roundup

Sale Day Phone:

(406) 357-2492 (Office)
(406)-399-2962 (Klint's cell)
(406) 945-4180 (Lori's cell)

Trucking:

Free Delivery on bulls up to 1000 miles on purchases totaling \$5,000 or more. Delivery beyond, at cost. Delivery arrangement will be made on females at buyers expense. \$50 discount per bull if picked up within 1 week.

Volume Discount:

2% on 2 bulls, 5% on 5 up to 10% on 10 bulls.

First Year Breeding Guarantee:

We offer a first breeding season guarantee for any injury that would keep a bull from breeding. If a problem occurs, we will give you a suitable replacement or you will receive full credit, minus the salvage value of the original bull. Insurance is also available. See page 39.

Sight Unseen Buying:

If you are unable to attend the sale, and would like to purchase, please give us a call. We will be glad to help you with your order. We guarantee 100% satisfaction on all orders.

Herd Health:

Our herd health, semen, scrotal evaluation and ultrasound pregnancy testing is performed by Chinook Vet Clinic; Dr. Bob Schmitt, DVM and Dr. Lane Schmitt, DVM. All bulls selling that Shipwheel has used for natural service have tested negative for trichomoniasis. Every bull has tested negative for BVD.

Wintering:

Wintering arrangements are available for \$300 per head until April 1, 2020.

Retained Interest:

Shipwheel Cattle Co. is retaining one-third (1/3) revenue sharing semen interest in every bull selling.

Terms & Conditions:

All cattle sell under the standard terms and conditions of the American Angus Association. Announcements sale day will take precedence over info in the catalog. Payment must be made day of sale, unless other prior arrangements are made.

Liability:

All persons who attend the sale do so at their own risk, Shipwheel Cattle Co assumes no liability, legal or otherwise, for any accidents which may occur.

5621 was our top selling bull in 2016. His first 21 calves averaged 93BR, 103 WR & 103YR. He is the most dominant all-around sire we have had the opportunity to use in our lifetime of breeding cattle. Calving ease, do ability and growth with moderate frames. Also, muscle, length, with good feet and structure and great dispositions. We anxiously await his first daughters to enter production. 5621 is backed by our best cow family, recognized for their superior udders, moderate size and the ability to produce to nearly 20 years old. We have AI bred 300 of our own females to 5621 this year.

Owned with Griffin Land & Livestock, MT. Semen Available.

EXPLANATION OF CALVING EASE SCORE DISPOSITION AND FOOT SCORES

We pay very close attention to the foot quality of our herd and only use a bull that we feel will improve the hoof structure. We focus on breeding an Angus cow that will stand the test of time in our extreme Northern Montana climate. Foot Quality has been severely over-looked in the chase for bigger numbers. No animal here is trimmed except for our horses. If there ever is a foot problem with a bull purchased from us, we make it right. Any bulls that showed signs of poor hoof structure have been culled.

DISPOSITION AND FOOT SCORES:

The scoring for the disposition and foot scores are based on a 1-5 rating. 1 being the very worst and 5 being the very best.

BULL DEVELOPMENT AT SHIPWHEEL CATTLE CO.

Prior to calving, our cows are expected to graze winter pasture with only SweetPro blocks, usually well into February before seeing any hay. Our cows are range calved in April and May while only being checked twice a day. The pairs summer primarily in some of our higher, rougher pastures with the calves never seeing any creep feed. A full round of shots are given at our June/July brandings as well as preconditioning in September/October. The calves are then fence line weaned in early November on our hay meadows and SweetPro blocks. After grazing for 30 days, the bulls are then hauled into our grow yard, where they remain until May. While in the grow yard, a 2.5 to 3 lb. gain is targeted with a roughage based diet consisting of grass/alfalfa hay, silage, a mix of oats, peas, corn and a customized vitamin mineral pack. We are constantly evaluating them and enjoy watching them slowly progress into structurally sound breeding bulls. The bulls are then hauled to summer pasture where they are expected to travel and thrive in rough terrain. In September, the bulls are brought back into the grow yard and fed a similar diet to post weaning. The manner in which we develop our bulls enables them to express their genetics. The bulls are broke to horses, dogs and a hot wire. A huge thank you goes out to Ron Amidon for the countless hours spent on our rations. His knowledge and experience is very valuable to our program. Also thanks to R&G Feeds, Malta MT.

Shipwheel Chloe 4121 - Dam

- This guy has had our attention as well as many visitors since day one. He is super gentle and is arguably the widest based Resource selling. 8601 is moderate framed, full of muscle and packs excellent feet. We would like to sample him in our program.
- Dam is our ideal angus cow. Smaller framed, gentle, excellent footed with an awesome udder and teats. Potential donor from a strong cow family.
- 7th dam back is the mother to Apex Transform 013, a past high selling bull at Midland Bull Test.

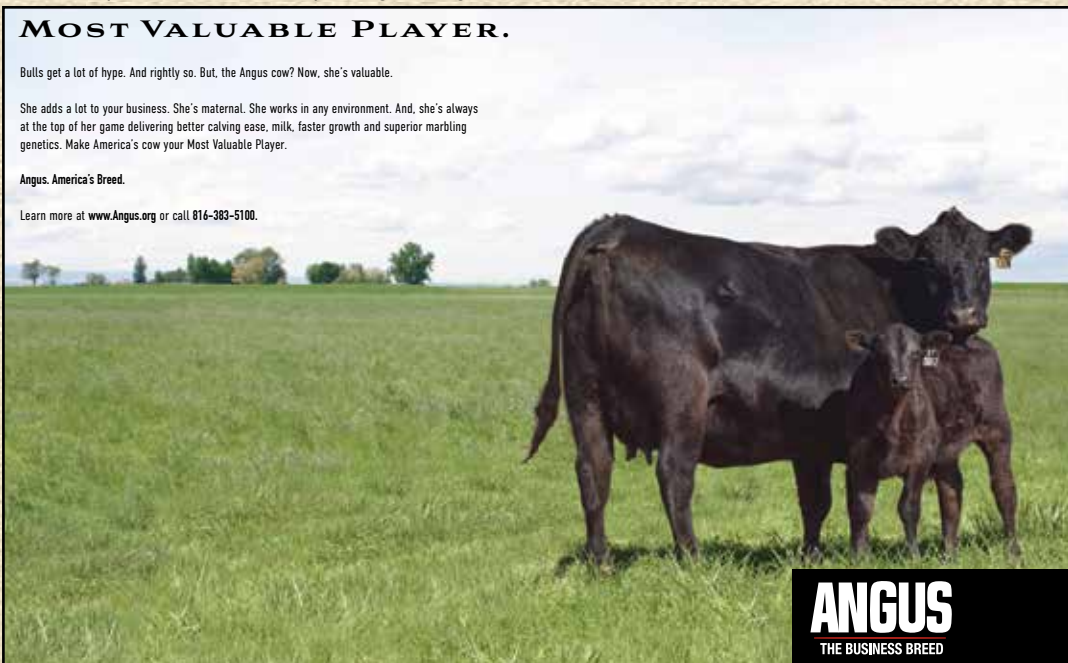

MOST VALUABLE PLAYER.

Bulls get a lot of hype. And rightly so. But, the Angus cow? Now, she's valuable.

She adds a lot to your business. She's maternal. She works in any environment. And, she's always at the top of her game delivering better calving ease, milk, faster growth and superior marbling genetics. Make America's cow your Most Valuable Player.

Angus. America's Breed.

 Disposition Score: 4 Hind Foot Score: 4

• An impressive bull that catches your eye from any angle. Boat loads of maternal and longevity bred into this dandy from both sides of his pedigree. We have used this bull for natural service and would like to continue using him AI.

- Dam is an impressive first calf heifer that bred back AI for her second. She is ideal sized and easy fleshing with a perfect level udder and small teats.
- 2nd, 3rd, 4th dams all donors and produced well up into their teens. 6th dam back was Klint's first registered cow.
- 8184 cow on the top side of the pedigree has also served as a donor for us. Several of her sons have gone on to be herd bulls including Shipwheel Upward 2517 working at R Math Farms, MT. Sire was purchased by E7 Angus and Charles Mavencamp, MT in 2017.

- The first of 5 impressive ET brothers to sell by our top selling herd sire, Shipwheel Resource 5621. 8518 was our pick of the calving ease bulls this last spring, although we did question ourselves using him on heifers due to the amount of muscle and power that he possessed. He has true herd bull demeanor, moving like a cat and servicing heifers with ease.
- Dam is the great WMR Pride 03 cow.
- Full ET brothers sell as lots 7, 16, 17, 84.
- 10 maternal brothers sell.

- A long sided, growthy Dr J from an outstanding cow family.
- Dam is an easy fleshing, long bodied, excellent uddered, pretty cow.
- Pathfinder, herd bull producing. Donor Grand dam raised 12 calves and served as a donor for us until she was 17. She is the mother to Lot 43.

- Dam is a super gentle, excellent uddered cow that is currently 12 and still going strong.

Annual Certified Angus Beef Convention

Lori and I recently returned from the annual Certified Angus Beef convention in Asheville, N.C. Wow, what an inspirational event. 700 people from every sector of the beef industry took part. Commercial cow/calf, seedstock, feedlots, packers, food service, wholesalers, retailers and restaurants. We had the chance to converse with many and hear and learn about their operations. Many

were recognized and got to tell their stories at the general sessions. Certified Angus Beef sales were up another 4% this year to 1.25 Billion pounds, getting shipped to 50 countries around the world. The Certified Angus Beef team does a tremendous job, working hard every day to promote your premium product. Optimism was very high and everyone there was looking forward to the future of Certified Angus Beef. I truly believe that we are nearing an upward trend in these markets. People around the globe are craving "real meat." Much more supply will be needed after these current trade deals are finished.

WHY WE TEST WITH HD50K FROM ZOETIS

Powered by HD50K from Zoetis, our cattle sell with genomic-enhanced expected progeny differences (GE-EPDs).

With GE-EPDs, we're confident that customers like you can minimize risk in their investment — and enhance the productivity of your cattle.

The benefits of buying HD50K and i50K-tested bulls and heifers goes beyond added accuracy for the complete range of traits for more productive daughters and progeny. You'll know early on what that animal is likely to transmit to its offspring and potential for performance in the feedlot and on the rail. You can also match the HD50K tested sires you buy from us to calves and replacement heifers — through GeneMax® Advantage™ and GeneMax® Focus™ — to make better breeding and management decisions down the road.

Knowing an animal's potential. Continuous progress of your herd. That's why we test with HD50K.

Number of progeny records in conventional genetic evaluation needed to achieve the same accuracy as GE-EPDs for non-parents with HD50K and i50K™ in the Angus Single-Step genetic evaluation
